

Birmingham Buses: Growth, Development and a War, 1912-46 Pt. 1 (Road Transport Heritage)

Birmingham was quite slow to introduce buses, but was at the forefront of vehicle development and passenger comfort in the 1920s and 30s, with one of the first top-covered fleets. This book examines the chronological development of the Birmingham bus, and its geographical, historical and social aspects in the very varied urban landscape of the pre-war city.
