

Seduce (McKenzie Brothers) (Volume 1)

Michael is CEO of McKenzie Holdings and has a very bad habit of placing work before all else. His wife, Viv, had died in a car accident, with her current lover, on the way to meet with the divorce attorneys six years ago. Michael was divorcing her because he discovered she had a stream of lovers during the course of their marriage. Since her death he has had no wish to get involved with anyone, until Lily. Lily, having lost her job at Oakfield Development, gains employment at McKenzie Holdings, thinking she's going to work as the Assistant to Dale Roberts, but unbeknownst to Lily she has been hired to work as Michael's assistant. Lily is shocked, and disappointed to realize that the man she's just been flirting with in the elevator is actually her boss. Lily and Michael are instantly drawn to each other, but he's her boss and Lily lives with her boyfriend of seven years. David, her boyfriend, has been acting strange for about five months which has caused Lily to re-evaluate her relationship with him and it comes up short, a lot. She had decided before meeting Michael that she wanted out of her relationship with David, but she has nowhere else to go, so she stays with him for now. Michael and Lily finally start their relationship, which involves a lot of hot loving and scarves which Lily uses on Michael! Their relationship seems to be heading towards happily ever after, until Lily makes an announcement to Michael, which has him telling her to leave his home. She does, heartbroken, and runs to his brother Lucien.
