I dont mean for one night or even two. I want you to be mine. I dont just want your body, I want all of you - your fiery temper, your smiles, your laughter and your tears. I want all of your touches and every kiss. Every sigh of pleasure, shudder of your body and release will be mine. I even want that infuriating attitude of yours that drives me fucking crazy, but more than anything, I want your heart. Every. Single. Piece of it. There are no other girls, Sadie. I dont see a damn one of them. Just you. Youre the only one Ive seen in a long time, and youre the only one who matters anymore. \*This is book two in the Ever After series but each book can be read as a standalone
