

## The Uprising (The Mackenzie Duncan Series Book 3)

Ever since Mackenzie Duncan watched her skin knit together after being ripped apart by a blood thirsty Werewolf, her life has been anything but normal. After being part of a pack with more secrets than the FBI, Mackenzie left and tried not to look back. Her old pack leader Margaret, a Royal wolf hungry to regain the throne and rule over all the worlds Werewolves, made that impossible. Figuring out who to trust was full of heart break, but moving forward left her with a clear path ahead. After Mackenzie found out that she, too, is part of the Royal blood line and that she had inadvertently endangered every pack she came into contact with, she feels that it is her duty to help stop Margaret at all costs before any more blood is shed or another life is lost. Despite traveling the world with Liam, the man she loves, her life is in danger at every turn in her hunt for other Werewolves willing to stand against Margaret. Who better to fight then the blood line that shunned the role of power centuries ago? Bloody battles surround her at every turn and when Mackenzie thinks all is lost, she has to find a way to embrace her past and accept her future.
