When legendary antiterrorist agent Vanessa Wade was assigned to impersonate the glamorous fiancée of international businessman Nick Markos, she reluctantly found herself on one last undercover mission. But Nick wasn't just another assignment. He was the brother of a traitor-and a tempting, complex man from Vanessa's past. A man whose kisses made her emotions spin out of control...Struggling to remain detached when indifference went against her nature, Vanessa vowed to remain professional. Surely her awareness of Nick as a very attractive, sexy man was a complication she could avoid acting on. But could she ignore the other complication her intuition nagged her about-the troubled soul that lurked beneath his strong facade?
