

## Flirting with Thirty - The Mystery Lady (The Internet Dating Chronicles Book 2)

Life is not a romance novel. For romance author Dana Jenkins, real life doesn't remotely resemble the erotic fantasies she pens for her readers. It sucked being the single parent, breadwinner, trash taker-outer, bill payer, and every other er that came with having teenagers and a house. But thanks to an online-dating profile, she's suddenly taken on a new role: dream lover for a man sixteen years her junior. Never enough Scott Masters can't get Dana out of his head. They've gone from steamy sexting to sharing their most intimate and naked moments via real-time chat. But Scott can't break through the electronic walls Dana has thrown up around her life, and her heart. All Dana wants is some cybersex. Some flirtation. No strings. It worked that way for her heroines. Why not for her? But her heroines never encountered anyone like Scott. A true romantic, a man longing for a picnic with a real woman, not an arrangement of pixels. Does she dare to bare even more to him?
