

Bearly In Love

Stacy Gage is really hoping that happily ever after does exist, but right now, she's doubting it. Newly graduated, she arrived back in her home town to discover that if it wasn't for bad, she wouldn't have any luck at all. Her grandmother is in the beginning stages of Alzheimers and the financial nest egg her grandfather spent years building has disappeared. When he isn't kissing her senselessly, the man of her dreams seems to be very much involved with someone else. The only job she can get involves large hairy animals. And, when it comes to fairy godmothers, she's definitely scraping the bottom of the barrel.
