After months of searching for the will to move on, he found nothing. When Kyce died, the world he knew was no more and he couldnt picture life without her in it, so he resolved to end his life. Fearing his body would attract wildlife, thus dirtying his beloved wifes kitchen, Jeramy dialed the pre-programmed Military Crisis Hotline to let them know to notify the base to collect the body. When he pressed 2 he was connected to help, it just wasnt the help he was expecting to find. Instead of the Military Crisis Hotline, Jeramy inadvertently woke up a woman across the country. The colorful string of threats and profanities she greeted him with at three in the morning was enough to make even an Army Ranger blush. Instead of telling him not to do it, to not pull the trigger, shesimply kept him company while he prepared to end it all. And it was that call which changed Jeramys life forever. **Contains colorful humor, sexual references, and language**
