In this sequel to Lhind the Thief, Lhind has gone from castoffs to silks, back alleys to palace halls and is not having an easy time of it. That's before she's snatched by an angry prince she's robbed twice, who is determined to turn her over to the enemy who frightens her most, the sinister Emperor Jardis Dhes-Andis. When her own dear Hlanan comes to rescue her, it's Lhind who has to do the rescuing, setting off a wild chase to fend off mercenaries and then to confront an entire army intent on invasion. Lhind and Hlanan try to negotiate the perilous waters of a relationship while on the run straight into a trap. Just when Lhind is beginning to figure out where she might fit into the world, she finds herself alone again, surrounded by enemies, in one of the most dangerous courts in the world. And she begins to find out who she really is.
