

The Wait

When Sarah discovered lingerie in her husband's vehicle, she knew her life would be changed forever, but she never could have predicted how much. Soon, what began as a harmless Girls Night Out with a friend for a tarot card reading turned into a shocking realization that her mother had kept a huge part of her heritage from her, and her dreams of late suggested her co-worker, Brian, wanted to be more than just a good friend. For as long as he had known Sarah, Brian had felt an undeniable attraction to her. The longer he knew her, the more he wanted from their friendship. He would do anything to heal her heart and help her become who she was meant to be. He would do everything within his power to protect her from harm and save her from the forces that threatened to keep them apart. Some loves are so special they are worth the wait.
