

Secrets Dont Make Survivors (Secrets Dont Make Friends Book 2)

Before That Night, Sadie Mays was a college graduate with an acceptance into a great PhD program, a fun summer nanny job abroad, and enough confidence to believe the world would always lay at her feet. After That Night, Kayleigh Vicks is nobody. She survives the only way she knows how staying alone, keeping her mouth shut, and turning her back on every single hope Sadie had for the future. Its working, at least as far as keeping her safe, but when handsome, charming Logan keeps popping up out of nowhere, Kayleigh struggles to push him away. Maybe its because she likes him, maybe its because hes persistent, or maybe its simply because she cant remember the last time she connected with another human being. She would never guess hes haunting her life because hes working for the people shes been hiding from for years and that its his job to bring her in. Their friendship, built on sinking sand, persists despite the odds and when its time to do what he came to do, Logan doesnt know if he can. Torn between loyalty to his family and his feelings for the girl he just met, hes desperate to find a way out that will save them both. But the secrets of That Night are starting to bubble to the surface, and neither Logan nor Kayleigh have enough of the pieces to see the whole puzzle. By the time all of them fall into place, it might be too late to save anyone.
