Help Me Angels : How to Connect and work with your Guardian Angels for Daily Guidance with No Request too Small - (Booklet approx. 10,400 words)Heres a question; do you believe in Angels? Im not talking about those fairies at the bottom of the garden, but fully fledged guardian angels. From all that I have read, each and every one of us is supposed to have our very own guardian angel; which never leaves our side from the day of our birth to the day we die. Our guardian angels are supposedly just waiting for us to ask for their help. They will not intervene to help us unless we actually ask for their help, except for maybe in a few critical life-threatening situations. Where, you might ask, are they then when disasters occur and when famine is a regular occurrence? Perhaps there are certain tasks that they cannot perform, especially if it conflicts with our own free will and life lessons.I certainly dont have all the answers...I barely have some of the questions, but there are times when I have been given pause for thought on this subject. This eBook seeks to answer some of these questions, by way of contributions and observations drawn from a selection of writers from all over the world, all jointly shining a light for a brief moment on this intriguing subject. Historic text illustrates and recounts angel sightings in abundance...But what about today, here and now in the 21st century? Are angels still helping us? Help Me Angels gives some uplifting, comforting and thought provoking real-life stories, drawn from the daily lives of ordinary people; starting with a few short personal experiences of my own!
