Return to The Summer Cottage and fall in love with the second novella in Lily Everetts heart-tugging Billionaire Brothers trilogy! For years, the Harrington family has dominated the business world. Gorgeous billionaire brothers Dylan, Logan and Miles Harrington command the family empire, which has given them everything they could ever want except the one thing that matters most. Now theyre about to travel to the windswept refuge of Sanctuary Island, where theyll discover that fortune, fame and power dont mean a thing without someone to share it with. As head of research for the family company, Logan Harrington spends most of his time alone in his lab coming up with new innovations or in his bedroom with whatever socialite has caught his fancy this week. But when work drives Logan to his breaking point, his assistant, Jessica Bell, spirits him away to his grandparents house on Sanctuary Island. Once there, Jessica begins to see beneath Logans mask to the loyal, caring, vulnerable man beneath, and she cant help falling in love. But when he finds out about her painful past, will they still have a future together?
