

The Consolations of Philosophy

Alain de Botton has performed a stunning feat: He has transformed arcane philosophy into something accessible and entertaining, useful and kind. Drawing on the work of six of the worlds most brilliant thinkers, de Botton has arranged a panoply of wisdom to guide us through our most common problems. From the frustration of misplacing your keys to the sadness of losing a loved one, the writings of Seneca can offer consolation. For the particular agony of not having enough money, Epicurus has a solution that everyone can afford. And if your life is beset by difficulty after difficulty, wise advice may be found in the words of Nietzsche, the brilliant philosopher whose own life was riddled with poverty, bad health, and excruciating loneliness. *The Consolations of Philosophy* is smart, lucid, and pleasing, a rare sort of book that wonderfully fulfills the promise of its title.
