THE THREE BOXES OF LIFE AND HOW TO GET OUT OF THEM The author demonstrates that our lives are rigidly defined into three periods based on primary activity - education, work, and retirement. During each of the box-life stages, we do little other than this primary activity. In analyzing the boxes, the author provides a structure to deal with the transition into each of the three periods. Charts and drawings are abundant and well-done. The book is truly a monumental work which provides a wealth of information.
