

Love in One Night (A Prepper Romance Book 5)

Melanie is a woman prepared for disaster. If the world as she knows it were to come grinding to a disastrous halt, her sustainable living community will be ready and able to take care of the people in their area. She doesn't have a man in her life anymore, but she has her daughter and that's enough. Until a tall, dark stranger drives into her life. Griffith is on a mission to find Melanie's ex-husband Victor, who has stolen a very expensive new drug from a pharmaceutical company. Griffith is a man who can find what others can't. He never backs down from a fight and he's never afraid until he sees Melanie. She steals his breath and makes him wish for things he's never wanted before. These two people are prepared for everything, except the depth of their own need for one another.
