Aria Darwin has always considered herself cursed. She is obsessed with finding a cure for the bad boyfriend plague. Worse yet, she's in denial about her weird abilities and terrified of her mysterious stalker who causes the earth to quake violently with the snap of his finger. With her two best friends, Aria enters her first semester of college armed with a no more men pact in an effort to demagnetize the sleaze balls. Unfortunately, the agreement proves difficult when she meets Liam, a charming foreign exchange student, on the first day of school. Aria quickly discovers that Liam is not only Mr. Perfect, but he also somehow ignites her supernatural side. Upon the invitation of her dream guy, Aria travels to Ireland through the study abroad program, dragging her friends along with her. But her world of euphoric bliss quickly comes crashing down as she uncovers the truth about her past, revealing who she really is and what she was born to do.
