Take one pretty brat with a defiant streak a mile wide, add a strict military man with a mission to achieve, throw in a handful of missile owning terrorists and what you have is a recipe for a hot bottomed, hard handed romantic spanking thriller. Being gifted aint easy. At thirty two, chronic singleton Zora Matthews is quite content with a life of frequent drinks and occasional employment. At least, she thinks she is, in between hangovers and job terminations. Older, wiser Captain Brett Savage is a serious man with a serious problem. A Bulgarian terrorist cell has a nuclear missile in their possession and its up to his unit to neutralize the threat. But this is no ordinary mission. To deactivate the missile, theyre going to need someone in the room. Someone with a mind like a machine. The discovery of a little known civilian mathematical genius with just the skill set needed to get the job done gives Savage hope, but when he attempts to retrieve his newest recruit he discovers that Zora isnt your typical nerd. Shes used to a life of hard partying and even harder rebellion - and shes none too receptive to the domineering man who walks into her life and tells her hell be taking over.
